

SMS Wallet

polymorpher/sms-wallet

@aaronqli

- + Non-custodial
- + Create or recover with SMS
- + SMS controlled mini-wallet

Signup in 10 seconds

1. Scan signup QR code (open mobile browser)
2. Verify phone number with SMS
3. Save recovery QR code as photo

Recover wallet in 10 seconds

1. Scan or load recovery QR code
2. Verify phone number with SMS

Why is it **non-custodial** and **secure**

Browser Private Key 

User Encryption Key
(Recovery) 

Phone SMS Code 200 212

Encrypted Private Key 

User Phone Number 

Other User Identifiers 

Server / DB

SMS controlled **mini-wallet**

A **hot wallet** entirely controlled by user's **SMS**

Deposits into server operated **smart contract**

User **pre-authorizes** asset spend limit / destination

Use cases

Fast **NFT** tickets, claims, purchases, showcases

In-game **non-interruptive** crypto micro transactions

Instant gratification before onboarding to full wallet
